SYNOPSIS OF COAL MINING REGULATIONS Coal mining rights in the Dominion, in Manitoba, Saskatchewan, Alberta, the Yukon Territory, the Northwest Territories and British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. No more than 200 acres will be leased to one applicant. Application for a lease must be made to the Agent or the Director of the Lands in which the coal is situated. The lease must be described by sections, or legal subdivisions of sections, and is subject to the terms and conditions set out in the regulations. A royalty shall be paid on the marketable output of the mine at the rate of five cents per ton. Every lessee of coal mining rights who is not being operated shall furnish the Director of the Lands with a report of the output of the mine at least once in each year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever valuable surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre. For full information application should be made to the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of the Department.

W. W. Cory, Deputy Minister of the Interior.

Crows Nest Flour & Feed Store Ltd. S. J. Sargent Manager.

Wholesale & Retail Agent for **Celebrated "Pantry Queen" Flour and White Swan Creamery Butter.**

C. P. HILL GETS BIG CONTRACT

SPOKANE PEOPLE TAKE BIG TON. NAME FROM WASHINGTON CO.

WILL ENLARGE OUTPUT

Washington Water Power Company takes 10,000 tons of coal, immediate delivery, 10,000 tons of screened coal with heat and more slack later.

C. P. Hill, managing director of the Hillcrest Coal company, is jubilant over having secured a big contract for coal from Washington parties. The contract which was closed last week, is with the Washington Water Power company of Spokane and is for 10,000 tons of slack.

The Washington Water Power company operates the lighting system of Spokane and besides having a water power electric lighting plant, operates an immense steam plant. It is for the latter that the slack is required for steaming purposes. The contract was secured through the Union Fuel & Ice company of Spokane, agents for Hillcrest coal at that city. The deal was engineered by E. F. Waggoner, president of the fuel company, who signed the contract when here last week.

Mr. Hill authorized the statement that the contract is for immediate delivery or as fast as the slack can be delivered and that it carries with it an agreement for the delivery of 10,000 tons of screened coal as well as an agreement for an enlargement of the contract for an additional 5000 tons of slack for December delivery. The contract was a great deal not only to the Hillcrest company but to the business interests of the district as well as it will be the means of enabling the company to greatly increase its output which of course means an enlarged pay roll.

Mr. Hill announces that the town-site of Hillcrest Mines will be thrown open in the near future, when lot will be put on the market. With the increased activity at the mine the town will doubtless enjoy a steady and substantial growth.

OFF FOR THE BIG FAIR

The Dominion exhibition, the biggest fair ever held in the west, opened Monday at Calgary, according to accounts, amid a shower of glory. According to the Calgary papers the fair is a big thing and will prove a great success. The big day, yesterday when the greatest pageant ever planned in the west paraded the streets and the 4th which promises to be equally as interesting will be long remembered by the crowds in attendance. Among those who have announced their intention of going to Calgary are L. W. Krebs, Mr. and Mrs. A. Manuel, H. Somerton, Eugene Schurr, Jack Miller, H. F. Davidson, R. Steeves, Willie Cobley and Fred Livingston of Frank; H. E. Lyons, Henry Pelletier, Capt. Peebe, Jack Stevens, Leslie Mills of Blainville; Mr. and Mrs. E. Dempsey and Dr. McKenzie of Bellevue. There will of course be many others.

NOTICE

Notice is hereby given that in accordance with the provisions of the Irrigation Act the West Canadian Collieries, Limited, has filed the memorials and plans required by sections 13 and 15 of the said act with the Commissioner of Irrigation, at Calgary, Alta.

The applicant applies for the right to divert 20 cubic feet of water per second from Bear Creek on the north east quarter of section 18, township 5, range 5, west of the 5th meridian, for other purposes, and for the right to construct the necessary works as shown by the memorials and plans filed to enable the water so diverted to be used for the said other purposes in the village of Lillo. Dated at Blainville, Alta, this 22nd day of June, 1908.

West Canadian Collieries, Limited, per C. L. Rameau, Power of Attorney.

AN ATTRACTIVE RESORT

Andy Good, proprietor of the Summit hotel at Cross, Nest, was down Monday to have a look at the metropolis and pick up a few city ideas. He explained that he had been up on top of the mountain so long he thought he would like to see the street cars and the autos so he took a run down to Frank.

If you will believe Andy's story for it, Alberta may soon be expected to become a winter resort and he claims to have the goods to show for it. The latter is making less than a real live alligator about six feet long which he insists he caught in the lake a few days ago. He says the creature was lying on a sandy beach near the hotel when he came upon it and as it happened to be asleep he just caught it by the tail. That naturally woke it up and being a strong man, which started to crawl he was able to steer it so successfully that it crawled right up to the hotel where he chucked it in a tank and added it to his menagerie. Speaking of the menagerie, Andy has quite a zoo for the benefit of his guests. He says he has, besides the alligator, a bear, a tiger, two lynx, three owls, an eagle and Scotty's tame.

Speaking seriously, Mr. Good said the lake is an especially fine place for this summer. The fishing is fine and he has considerably improved his place by providing a sports field and a dancing pavilion and parties can spend a most enjoyable day there. Mr. Good has a great scheme for further improving the lake as a resort and if he carries it out there will be no finer place to go for summer outing anywhere in the country. His plan is to organize a stock company, build a pulsed of a hotel, dig a canal between the first and second lakes and run a launch between the hotel and the lower end of the big lake. There he will have a stopping place and provide on made for caring for teams so that visitors from the towns of The Pass can drive to the lake, leave their teams and take the boat for the hotel, giving them a five mile ride that would be delightful beyond description. If he carries out the scheme it will certainly make the lake a great resort.

Additional Details.

Prof. Huston, principle of the Frank school, left Friday evening for Gillingham where he will visit Mr. and Mrs. J. M. Carter.

George Somerton left Tuesday evening on a trip to eastern Canada. He will be gone about three weeks. The store will be in charge of his brother, H. Somerton in his absence.

For the Dominion Exhibition, Calgary, June 25th to July 9th the Canadian Pacific Railway company announce a rate of \$4.70 from Frank to Calgary and return. Tickets on sale June 25th to July 7th, inclusive. Final return limit July 13th.

The Frank baseball club organized Friday evening. After perfecting the regular organization the club elected M. G. Ryman captain. The team at once arranged to enter for the baseball competition at the Coleman celebration.

The department of education has sent out requests to all school boards for statements of the number of readers that will be required during the next school year when the free book system goes into effect. The books are now at Edmonton ready for distribution.

The celebration committee in charge of the celebration of Dominion Day had arrangements for the celebration nicely completed. Everything contributed to a successful day of sports. A big ball in the evening closed the events of the day.

A. C. Flumerfelt and M. N. Galer of the International and Alberta coal companies and the Royal Collieries visited The Pass the last of the week. After visiting their properties at Lethbridge and Lundbreck they left Sunday evening for Spokane, coming to Frank to take the flyer.

Word was received in Frank last week of the serious injury of Corporal Asker, formerly in charge of the Frank detachment of the mounted police. Corporal Asker was thrown from a horse and had an arm broken and was otherwise badly hurt. Corporal Asker is now stationed at Twiss Lake.

LAW DOES NOT FORGET

MAN ACCUSED OF ATTEMPTED MURDER CAUGHT AFTER TWO YEARS.

STABBING AT LILLE

Tom Donohue killed for Night Cause, Nearly Died—Vicenzo Zeto who did the job escaped but is finally taken in British Columbia—Hearing Yesterday.

That the arm of the law is long and that justice does not forget find explanation in a case the police have had to deal with this week. It harks back for two years almost, to a celebration given by the Italian society of Lille at that camp the 15th of October 1906 when Thomas Donohue was stabbed at the dance which closed the celebration. Donohue escaped death but narrowly that the margin was desperately thin. His assailant escaped and although the police worked on the case for months no trace of the man could be found.

The incident had probably passed from the minds of most people but the principals and the police—that the latter had not lost sight of it—there is good evidence. Vincenzo Zeto, the man who is alleged to have done the cutting made his way to the states and stayed there until within the week when, evidently believing the matter had entirely blown over, he came back to Canada. He quietly dropped into Fernie where Constable Sampson of the B. C. provincial police is located. Constable Sampson had seen a photograph of the man accused of the stabbing and the memory of it had not been erased when he saw the man on the street. Zeto was soon behind the bars and the police department here notified. Sunday Sergeant Haslett went to Fernie and brought back the prisoner.

The circumstances of the cutting affair as related at the trial indicated it to have been a particularly cold blooded affair. Within the jaws of the law, a big crowd was drinking at the bar of the Lille hotel when suddenly Donohue who was then employed as a carpenter in Frank and who with some friends was taking in the celebration, chanced to knock Zeto's glass off the bar. He apologized and bought another drink and the incident was supposed to have closed. Later while some of the party were dancing, Donohue took hold of Zeto to walk him around, all in play, when Zeto who evidently had the knife in his hand awaiting his opportunity, plunged it into Donohue's abdomen.

Zeto's hearing was held yesterday before Justice Disney of Coleman at the Frank barracks.

CORBIN STARTS BUILDING

On the construction of a railroad to develop coal properties in the Crows Nest country in British Columbia, D. C. Corbin, president of the Spokane International and associates have been employing a force of 500 since the middle of this month.

The road, which will be completed within three months, will be 14 miles in length, connecting with the Canadian Pacific at McGillivray, a station four miles east of Michel, and extending south through the mountain canyons, where the mine openings will be made.

The sections penetrated by the road are said to contain more extensive coal measures than any equal area in the Crows Nest country, which is a coal producing field of a prospective rival of Pennsylvania.

"We are going ahead with the construction of the road as rapidly as possible and we expect to have it completed and in operation this summer," said Mr. Corbin yesterday. "The road presents no difficulties in the way of construction. But very little if any heavy work will be encountered and the grades are not heavy considering the character of the country."—Spokane Daily.

TREES FOR THE PRAIRIES

Two million trees per year has been for the past five years, the average number of trees sent out by the Department of the Interior, through its Forestry Branch, to settlers on the western prairies, to be planted, for the most part, for windbreaks and shelterbelts. The total number of trees would plant up an area of some 4,900 acres if set out under the regulation of the Forestry Branch. The scheme has been in operation since 1911, and is fully described in a pamphlet lately issued by the Department. The Branch has for several years past conducted its own nursery at Indian Head. All the trees used are now grown at this nursery with the exception of Dakota cotton wood which is found much cheaper to import from Dakota. The varieties distributed, together with the proportion of each to the total, is as set follows:— Green ash, 45%; Manitoba maple, 30%; Dakota cottonwood, 11%; American elm, 8%; willow, 4%; Russian poplar, 2%.

The trees used are, for the most part, planted for shelterbelts and windbreaks, the need of which is readily appreciated by anyone who has lived upon or travelled over the prairie; incidentally they form a very welcome relief for the monotony of the prairie landscape and make the farmstead far more home like, and so have considerable esthetic value. Through inspection, both of the land to be planted the year previous to planting and of plantations already set out, is maintained, and to this much of the success which has attended the scheme is due. Eighty five per cent and more of the trees set out are alive today. The pamphlet contains numerous illustrations, which show, better than words can do, the growth of a prairie plantation. It will be sent free to any address on application to the Superintendent of Forestry, Ottawa.

Frank News in Brief

Buy your clothing of A. V. Lang.
Alex Goyette, dealer in furniture and wall paper.

The Rev. Can on Webb of Calgary preached at Knox church Sunday morning.

Mrs. J. F. Stevens and family left the last of the week for Mrs. Stevens' foreign home in Eastern Canada.
Bishop Legal of St. Albert is expected in Frank July 14th at which time he will hold confirmation service. It is also expected that other services will be held at which he will preside.

Secretary Crutchebank of the board of trade is in receipt of notice from the President of the Associated Boards of Trade that the semi-annual meeting of the executive board of the association has been postponed from July 2nd to the 17th owing to the Calgary fair.

Frank and Blairmore played their first baseball game of the season Wednesday. The game went for four innings, Blairmore being in the lead by the score of seven to five when, owing to darkness it was necessary to call the game. The umpire's decision was no game.

The friends of L. A. Manley of the Grand Union hotel at Coleman will learn with regret of the death of his mother which occurred at Grand Forks, B. C. Friday last. Mrs. Manley has been long a resident of Grand Forks where she was highly esteemed and where her loss is sincerely mourned.

A basket picnic for the children of the Catholic Sunday school will be held next Monday, weather permitting, on Blossomwood ranch north of town. There will be all sorts of races for the children for which an entrance fee of ten cents will be charged. Every boy is invited and Father LaFollet who will be in charge is anxious that the "old folk" come about 5 o'clock to see the races.

School closed Friday for the summer vacation. The term had two days more to run but the pupils circulated a petition to the school board asking that the term end Friday and as about everybody, in sympathy with the youngsters, signed it, the board decided to let them have their wish. The new term will begin August 24th. Professor Huston will spend a part of the vacation time at his fruit ranch on Kootenay lake. Miss Berry will remain in Frank a part of the time and the rest will spend in a trip to the coast.

W. J. Budd of the Rocky Mountains Cement company was down from Calgary the last of the week.

The Frank council is improving the Blairmore road as far as the first bridge. John Miller is in charge of work and is doing a first class job.

Inspector Balseher was up from Pincher Monday in connection with the arrest of an Italian charged with being the principal in the Lillo stabbing affair of over a year ago.

The board of license commissioners met in Frank yesterday to consider the transfer of the Coleman hotel license to A. Metz who is taking over this house the first of the month. The transfer was recommended.

A. V. Lang, R. Stevens, A. Manuel and Roy Hagarth made a fishing trip to Todd Creek the last of the week. They report a very good catch but the fishing was all with bait, the fish would not rise to a fly.

The gun club which was re-organized some time ago, held its regular shoot Wednesday. T. M. Burnett won the gold medal with 16 birds in 25. T. B. Martin was second with 14 and George Crutchebank third with 13.

The marriage of Michael Murphy of the C.P.R. yard crew and Miss Ethel McLeod of Frank occurred Tuesday. The ceremony was solemnized in the private chapel of Father Lajoie in the Burns building with only a few intimate friends present. The couple will reside on the north side where Mr. Murphy has furnished a neat cottage.

The exhibit for the Calgary fair of the West Canadian Collieries, which will be the only one from this district, was shipped during the week. It consisted of one sack of oveseal coal, one sack of blacksmith coal, two sacks of coke and one sack of lump from Lillo and an immense block weighing over two tons from Bell. James Donald of the company staff left Sunday for Calgary to take charge of the exhibit during the fair.

Capt. Beebe for the Blairmore council has been making notable improvements to the streets of Blairmore. The main street and the road leading to Frank have been put in fine condition and a sidewalk has been laid all along the north side of the main street. It greatly improves the appearance of the village. Some new streets have also been opened and Capt. Beebe is now engaged in building a new road from the race track west to the mill bridge.

All sickness is due to OXYDONOR

It applies to all cases no matter what the form of disease may be.
The human body is revitalized by oxygen from the air.
No one can apply Oxydonor rightly without hands.
No one is now incurable in any form of disease until the principles of life are lost by the irreparable destruction of some vital organ.

Organization of the whole organism through the use of Oxydonor remedies and remedies all difficulties in any disease condition are brought to a solution early enough. It has brought health and happiness to scores of miserable sufferers from Rheumatism, Gout, Indigestion, Neuritis, Nervous Troubles, Bright's Disease, Catarrh, Haemorrhoids, Indigestion, Dysentery, Cough, Croup, Epilepsy, Liver, Kidney, Bladder and Stomach troubles, Puerperal, Leucorrhoea, Bronchitis, Paralysis, Child and Adolescent, Female Troubles, Tumors, Abscesses, etc.

Mrs. J. J. Sanche, Neapolis, Alta., writes: "Received the Oxydonor and had it a source of great relief, although I have had it hardly a month. The first night I slept and rested better than for weeks and my bowels have moved regularly every morning while I used the Oxydonor during the night."

My general health is greatly improved. For years I have been compelled to take a physic every day and been subject to severe headaches and nervousness, but find them all disappearing and how thankful I am. My children say I look ten years younger, and I was just sixty-nine years old the 8th of May."
